

Pavel Rogovtsov

EXPERIENCE

QT projects

- Has developed an application that allows you to work with 6 color models. (*Convert, adjust current color, and apply fine-tuned settings for various models*)
- I have developed my own Windows Explorer alternative using QT.
- also implemented various 3D and 2D imaging algorithms
- wrote a well-known game “barley-break”
- wrote a game “bull and cows”
- wrote a simple version of paint

EDUCATION

BELARUSIAN STATE UNIVERSITY

Specialty: Applied Computer Science

Faculty of Applied Mathematics and Computer Science

2021 — now

SKILLS

- C++ - Intermediate
- Qt - Intermediate
- docker - beginner
- python - beginner
- Linux - Intermediate
